English Timber Yard.

JOHN E TURNER & Co. beg to announce to the Commerce and Farmers that they have established a Yard for the Sale of fencing and building materials etc. at No. 335 Calle Pedro Mendoza, Boca del Riachuelo, where a complete assortment will always be kepton hand.

Having arranged with Mr Edward Ossay to conduct the sale of landubay posts which come to his consignment, we are in a position to retail all measurements at wholesale prices, with the guarantee of supplying posts to the satisfaction of buyers.

Fencing wire of best Marks 'varillas' 'torniquetes, lumber in general, all classes of Pine, Tiles, Baldosas and all building materials are always in stock.

All kinds of Sheep Wash.

The business will be conducted upon a strict cash principle and by this means we confidently expect to give good articles at lower prices than any other house in the trade.

The yard is situate a few paces from the terminus of the Boca trains, which leave the Central Station every hour.

Carlow Lay College
AND
ST. MARY'S PREPARATORY SCHOOL
Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 85 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.
Matron and Professor of French and Music—Miss Finnerau.
English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 85 guineas per annum.

Pension, exclusive of extras, 230.

Mr J. A. Bennet,
Sir

I have great pleasure in stating that the Holman Liver and Stomach Pad I purchased, bear out your representations of their curative power.

For four years, my wife has been suffering from pain in the Stomach, indigestion and loss of appetite. She was Two Years attended by one of our most eminent Doctors, without relief, and now after five weeks wearing the Pad is Perfectly Well! You can make what use you think proper of this.

I remain
Yours obliged
THOMAS CAREY.

Reader, are you sick? Do you want to be cured without medicines? Then try this Pad! and if your case is chronic or becoming so, do not delay.

Asthma

Himrod's Cure

The discoverer of Himrod's Cure was for twelve years a great sufferer with that terrible disease, Asthma, and for the past nine years wholly unable to engage in active business. After using every remedy that was offered to the public, receiving generally but little benefit, and in no case more than partial and temporary relief, he finally resolved upon a thorough personal investigation into the peculiarities of a disease which has forever baffled the best medical skill, and a series of experiments with a view to the production of an article which would prove to be an effectual cure.

After many trials and failures, he at last succeeded in bringing together the combination which is now offered to the public with the fullest confidence in its value as a cure. It has been thoroughly tested in many of the worst cases, and all conversant with its merits unite in awarding to it the most unqualified praise.

THE CATTLE SHOW.

The heavy rain in the forenoon of Sunday last interfered greatly with the successful opening of the Rural Society's Show, and the attendance was extremely meagre, including only five ladies; in fact, in the early part of the day there was hardly any public at all, those immediately interested forming the great majority of those present. Neither the National nor the Provincial Government was represented on the occasion, which is certainly much to be regretted: but politics now, necessarily perhaps, occupy the whole time and thoughts of the members of both Governments.

About 1 o'clock the few visitors began to arrive from town, and at that hour there were few if any traces left of the heavy showers in the morning, the sand with which the grounds are laid having quickly absorbed all the moisture. Two very good bands of music did their best to enliven the scene, but the meagre attendance defeated their efforts. As for the Show itself, it may fairly be stated that, in the way of horses, horned cattle and various descriptions of machinery, it is the best ever seen in this country: there are many truly magnificent animals of both kinds, and we strongly recommend our readers to take a peep at them before the Show closes. In no way can the enormous stride this country has made in cattle and horse breeding since the first Show of the Rural Society be so brought home to us as by a visit to the splendid collection of horses, bulls and cows now at Palermo. As for sheep, there are hardly any, and but for Messrs. Chas, Guerrico and Carmen, there would have been none. Of machinery we noted some fine samples: thrashing machines, exhibited by Messrs. Shaw and Ponsati, Moore and Tudor, and others; some splendid Self-Binders, a chain 'tranquera,' a few pumps &c, but we expect to see more on our second visit.

There is one department of the Exhibition which, to our mind, exceeds in interest all the others put together, and that is, the *Dairy Produce* exhibited by Messrs Salaberry, Mandia and Erregeborde of the 'Remedios' farm. The butter and cheese exhibited by these enterprising Biscayan gentlemen are the shadow (a golden one) which coming events in this line have thrown before them. The table and Parmesan cheeses at only 6 mje per lb. are excellent, and the same praise is due to the Brie, and 'mantecosa' kinds: as for the butter, Cork itself could turn out nothing finer. We turned from the cheese and butter with a firmer conviction than ever that in the *Dairy* this country will yet find a source of wealth compared with which its present wool trade is quite insignificant. Next we noticed some very fine specimens of silk, cheek by jowl with 'licoras' and preserved meat. Mr Diehl exhibits some very tempting samples of pork and sausages, the latter looking as if they really merited that 'implicit confidence' without which it is always safer to say 'No, thank you,' to an offer of this delicacy. Strange enough, on turning from the sausages, we came across the only dogs (3) in the Show, then some few fowl, and a couple of pigs, all very fair specimens of their kind. From pigs and fowl to flowers was but a step, and Mr Peluffo's magnificent collection of plants held us for nearly an hour; we observe a very marked improvement in the style of cultivation since the first Flower Show.

On the whole, the Cattle Show of 1880 may be considered a success, as an industrial barometer which shows that a 'Change' is at hand: Messrs Salaberry's dairy produce and the splendid show of bulls and cows point to the direction of that change.

Pleased as a visitor to this Show must be, and confirmed in the belief of a dazzling future, not a few deep thinkers will return from Palermo with the sad conviction that Argentines are yet far below the mark in their appreciation of that future, or the efforts they are in patriotic duty bound to make to bring it about. It is, indeed, depressing to think that, but for a few spirited men—Messrs. Pereyra, Fair, Quirno, Reid, Casares and others, this Show would have been empty! An intelligent European visitor who had read of our 60 millions of sheep, 14 millions of cows, &c., would certainly stare in incredulous amazement at 'so little wool for such great cry.' The great proprietors of sheep and cattle, with the honourable exceptions already named, are conspicuous by their absence.' Where are the Anchorenas, the Pellas, the Alzagas, the Guerreros, Mr. Shannan, the Fernandezes, the Iroolas and others? And where are the numerous millionaire Irishmen in the camp, whose self-made fortunes can vie with, aye, surpass, the proudest inheritance in the land? It seems incredible that not one of these Crœsuses (native or foreign) with their countless flocks and herds and enormous wealth, has ever thought of giving even $50,000 m/c to the Rural Society for prizes (say $10,000 m/c a year for five years) for the heaviest bullock, the finest sheep, or the fattest pig of a certain age. Is there no real patriotism or public spirit amongst our wealthiest men when their own and the country's most vital interests are at stake? With profound pain we feel bound to confess to a conviction that there is not. There may be many reasons for this; but foremost, amongst them is the pernicious and fatal habit of looking to the Government to take the initiative in *everything*, from a May Fete in the Plaza to the most important acts in a nation's life.

We give a list of the Juries below, but before closing these remarks, wish to suggest to the Show Committee the propriety of providing some better and more decent accomodation for the herds and grooms in charge of the animals: These men are not boors, but highly intelligent men, whom it is a positive outrage to ask to sleep on the straw beside their beasts. Another suggestion we would make, for the next Show, is that the horses and cattle should be exhibited in loose boxes, and not in narrow stalls, in which it is impossible to get a good view of any of their beauties except the tail. We reserve for to-morrow another chapter.

EUROPEAN ADVICES.

Advices from Europe by the Senegal's mails are of a mixed character. The general elections in England have caused the disbursement of over a million stg. which money will be spread among the people: and the bankers in London view with pleasure that both French and American exchanges are in their favour. The New York foreign trade report for January and February shows an increase in imports of 23,000,000 pats. and a decrease of exports of 2,000,000 pats, as compared with the same months in 1879: and but for the tremendous cornring in the States exchange would seem at last to have turned against New York: but at any moment the ring may be broken up and the corn shipped to Europe. Two bank failures have occurred in France. One at the ancient town of Caen, a private bank of long standing, but of small liabilities. The other at Mayenne known as the bank of Chanteau and Co., of Laval, with liabilities of 75,000,000 fr. and in Vienna and Berlin they have had a great panic in ironworks and mining stores. Prices fell 24 and 41 florins, but the fall was so sudden that a reaction followed, and the shares are now back at their former quotations. The premium on gold is rising in Austria and Hungary: and the price of iron has fallen sensibly in England. In France business is very brisk, and the Northern Railway, to meet its increasing traffic, has ordered 35 new locomotives, 3,000 passenger and goods carriages, and appropriated 1,600,000 fr. for enlarging stations. The discounts of the German, French and Austrian banks are improving gradually; and in England money is flowing from London to the provinces; Austria is sending immense supplies of wheat to England from her abundant harvest, and spite of the large export of gold since the beginning of the year the stock of bullion in the Bank of England is £26,600,000, which shows an increase of a million sterling since the year began; but the gold circulation in the country has within that period diminished two millions and a quarter.

The last number of the *Economist* received by the Senegal, dated 13th March, 1880, gives a very important supplement entitled 'Commercial History and Review of 1879,' and merits a close perusal by merchants, there being scarcely an article, an industry, or an interest not touched on.

The British trade returns for the first two months, January and February, of the present year are also given, and they reflect the great revival of trade. We find under the head of exports, cotton manufactures, piece goods of all kinds, the following returns:—

	Two months 1880	Do 1879
	—	—
To Brasil values..	£398,181	£303,199
Uruguay.....	71,556	48,497
Argent. Republic..	115,996	66,884
Woolen goods—		
To Brasil.....	21,192	5,788
Uruguay.....	22,422	13,130
Argent Republic..	39,792	26,690
Chile.....	4,620	2,779
Peru	5,163	13,820
U. States.....	216 921	122,058
Brit. N. America..	87,881	101,631
Australia.....	36,919	42,816

These figures are of very great importance, since they show that whilst English trade is reviving with these countries, it is on the decline with our own colonies.

We have often remarked it, that there is more practical information to be derived from the speech of a chairman of a Railway company to the shareholders than from even the speech of the Premier in the House. Sir Ralph Cusack, the chairman of the Midland Great Western, at a meeting of shareholders held in Dublin on the 4th of last March, gives the following able sketch of railway depression which possesses some features of interest for this market. He said:—

"Not only their railway but all the railways in the country had suffered during the last two years from the state of things that existed. In England and Scotland, over the entire Continent of Europe, and also in America, the same state of things had prevailed. When a tempest of financial depression passed over America it was found necessary in 1873 to dispose in the Bankrupt Courts there of no less than 65 railways, having an extent of 4,000 miles, and representing a capital of £195,000,000; and in most instances the original Shareholders of those Companies did not receive a shilling. Many Companies there were forced to resort to an expedient which he was happy to say they had never been forced to resort to—of reducing the wages of even their humblest employes; and in one instance a very large Railway Company paid their porters in deferred coupons. How changed was everything in America now! In the year 1879, 4,000 miles of new railways were constructed there; and so great was the demand for steel rails that the price of them in England had been doubled, chiefly, he believed, from the orders that were given for them in America, and that were given in the face of an import duty of $28, or between £5 and £6, a ton. In England and Scotland, up to September or October last, there was a complete stagnation in all trade. Railway property had depreciated in value, and even so recently as the first week in October last the receipts of nearly all the large railways in England had fallen to an enormous extent. But, as if by magic, from the month of October their receipts revived, and they closed their half year in England with, in every instances, increased receipts and increased or equalled dividends. His own opinion was what had happened on the Continent of America and in England or Scotland must inevitably happen in this country as soon as the trade upon which they depended revived—(Hear, hear). They depended in this country—and especially this Company—on the produce of land, whether it was cattle, potatoes, corn—almost their entire receipts could be traced to these—(Hear). In addition they depended very much on the prosperity of England, because when England was prosperous its people bought up their cattle, employed their harvestmen, and sent them tourists. While England was depressed few of their harvest men went over there because there was no employment. There was also a total stagnation in the cattle trade, which was greatly increased by the enormous mortality among sheep, principally in the west of Ireland."

It is impossible, of course, within the short measure of an article to grasp the subjects that present themselves to the mind on the reading of these long commercial reviews. Every branch of trade would afford subject for an article. We have read through patiently most of these reviews, and two great facts stand out—one, that British trade shows a permanent revival; and the other, that Argentine Stocks have risen during the year 1879 21 per cent.

THE SAN LUIS RAILWAY INAUGURATION.

(Concluded).

Villa Mercedes was reached at 5 p.m. An immense crowd, nearly filling the station ground, was assembled to meet the train, and Dr. Plaza was received with the enthusiasm which his important mission justly demanded.

The ceremony of turning the first sod of the extension of the Andino line was proceeded with without delay. His Excellency, after the work had been blessed by the priests with solemn ceremonies, took the spade in hand, and, in the same practical manner which characterises his efforts in dealing with the finances of the country, turned the first sod of the work, which, I hope, will be continued without interruption until the rails reach Mendoza, and the shrill whistle of the iron horse shall awake the Mendozinos to the fact that the mule-cart is not sufficient to fill the necessities of the transport of the products which their fruitful soil shall produce. One thing delighted me in the ceremony, viz., that the tool used by Dr. Plaza was not a trumpery silver or plated thing, but a substantial, useful weapon, imported by Messrs. Rezia, Sala and Co., of Rosario. I take this as an omen of the practical way in which the works of the extension will be carried out. After performing the ceremony the Minister gave a long speech, and in most eloquent terms pointed out to the spectators the great advantages such works gave to commercial intercourse, the friendly spirit they fostered between distant nations, and traced the history of the development of this country's trade from the time the first rail was laid in the Republic to the present time. His speech teemed with information, and doubtless many were astonished at the number of passengers and tons of goods and the revenue received by the different lines at present working in the different provinces. Well might he ask how could such a traffic be carried on by the antiquated diligence and bullock and mule cart, and how many years would be required to develope so great a trade in this or any other country with the means at present in use in the Interior. The speech finished with earnest wishes that no political cloud would arise to interrupt so important and necessary a work.

Dr. Achaval, representing the Cordova Provincial Government, and Dr. Igarzabal that of San Luis, also spoke most eloquently.

The banquet commenced at 7.30 p.m. Covers for 150 guests were laid in a large saloon, which was gaily decorated with flags, wreaths, &c. You can judge of the excellence of the viands and wines from the 'menu,' which I enclose. Great animation was felt; the bright toilettes of the ladies, the gay uniforms of the military officers and the numerous lights which illuminated the scene, together with the good cheer provided, raised the spirits of guests so that time passed unnoticed.

At length, when all appeared satisfied, His Excellency rose, and in a short and good speech wished success to the undertaking which had that day been inaugurated.

Dr. Achaval, Mr. White and several others also spoke, and at 10 p.m. the guests departed, to prepare for a ball which was to be given that night in Villa Mercedes.

At 11.30 p.m. the dancing commenced, and was kept up with spirit till 4 a.m.

On Sunday a lunch was given in the banqueting saloon by the people of Villa Mercedes to their visitors. This being over, after more speeches, we embarked for Rio 4to., being very gratified at the hearty welcome and the great hospitality which had been extended to us; arrived in Rio 4to. at 6 p.m., and at 8 o'clock sat down to the last banquet which was to take place on the trip. Many guests from Rio 4to. were present. Several speeches were made, that of Mr Rom being notable: He toasted the ladies in terms which brought forth many cheers and caused much laughter. He then rose a second time, and in a speech, remarkable for its earnestness, and in strong contrast to his previous one, solemnly exhorted his hearers to forget all provincial distinctions, to consider themselves not as Porteños, Cordobeses, Tucumanos, etc., but as Argentines; and called upon them to shew real patriotism, to be true patriots and worthy the name of fathers of their country by using every effort to bind the whole Argentine nation together with the cords of mutual assistance and sympathy, so that by identical interests and united effort the Republic might take its true rank amongst the greatest and most progressive nations of the earth. It was well spoken and well received. Dr. Achaval spoke of the necessity of railroads to this country, and of the great progress which the Republic had experienced through the introduction of British capital, and called upon the guests to drink to the health of the English nation and people, coupled with the name of the late Mr W. Wheelwright, the pioneer of railroads in the interior provinces.

To this Mr Fisher responded.

A farewell ball was given in the saloons of the Rio 4to. Club. It was admirably arranged, and dancing carried on with great animation till 4 a.m His Excellency and party left Rio 4to. for Cordoba on the 13th, arriving there at midnight. He was received at the station by the Governor of Cordoba, Dr. Viso, General Roca, many members of the Provincial Chambers, and a large assembly of friends.

Thus ended the inauguration trip, which was enjoyed thoroughly by all, everything being carried through with great good feeling.

I cannot finish without recording the excellent arrangements made by the manager of the Andino line, who deserves the greatest credit for the taste displayed in the decorations, and the zeal of the employees in attending to the comfort of the large number of guests present at the ceremony. In the name of these, Sr. Sanchez and the Andino line employees generally are heartily thanked by

Yours truly,
Pajarito.

IMPORTANT FROM ROSARIO.

ATTACK ON INDIANS.

April 16th.

Through the kindness of a friend I am enabled to send you news of an attack on the Indians of the Chaco, that had the result of securing the person of one of the most important of the caciques of the Southern Chaco, the valient Andres Lopez.

Towards the end of March the Indians, headed by Lopez, invaded

the colony of San Javier, and, aided without doubt by some of the 'reducidos,' or half civilized Indians, carried off a considerable booty in cattle. The Juez de Paz, Mr. Alarilla, organized a party of seventy between natives and foreigners, mounted on the best horses the colonists could lend them, and on the 31st March started on the trail. About thirty leagues in a north-westerly direction the party came upon a large deserted tolderia, which had, however, been very recently occupied, as there existed fresh evidence of the Indians having had at this place a grand feast off the stolen animals, a large number having been consumed in this tolderia. It is well known that the Indians can live a long time with very little food, but when there is abundance they eat night and day, and consume an incredible quantity of meat in a short time.

It was evident that the Indians were aware of the approach of the party, and were not far off. The Commander despatched a Sergeant's guard in advance, and it was not long before this party was fiercely attacked by a large number of Indians with lances. The Sergeant was knocked off his horse, wounded, and the savages at once surrounded him, to despatch him, but strange to say, the Cacique came up at the moment, and saved him. Putting the Sergeant in the care of two Indians, the Cacique, with his warriors made a determined charge on the main body of the enemy, and a gallant fight began. Fire arms, however, gained the day. A colonist shot the Cacique's horse dead, the chief fell with him, and was immediately taken prisoner. His warriors seeing their Cacique in the hands of the enemy, took to flight at once. The affair was so sudden and ended so rapidly, that there were few losses on either side, but the Indians appeared to be so determined and in such large numbers that the Juez de Paz thought it prudent to return, particularly as he had secured the principal prize. As I understand, no one was killed on either side. If any Indian was killed or wounded, his comrades carried him off.

Andres Lopez is now in San Javier, detained as a prisoner. He occupies the same room with the wounded sergeant, whose life he saved. He has not been sent down to Santa Fe, because he has intimated a desire to submit with all his tribe and become amenable to the laws of the country; to become, in fact, citizens, good or bad.

Another Cacique of considerable influence, by name Valentin, has presented himself to receive the baptism of civilization such as it is: but the civilization, that our authorities give to the Indians is of a quality very little superior to their own.

The Fortines are all in a miserable condition, guarded each by three or four ragged, half-starved soldiers that the Indians have no reason to envy; on the contrary, all they see of official civilization must be very contemptible in their eyes. Even when the Indians are 'reduced,' that is induced to live in towns and work, they are continually pestered by Comandantes, who want their votes 'de temps en temps.' We know what that means. We know what slaves the poor camp natives are to the beck and nod of a Comandante or Teniente-Alcalde, and it is no wonder the Indians consider their civilization superior to ours; and I have to agree with them. Their political civilization is superior to ours.

San Yavier has improved very much: when the writer of this letter made his expedition to the Chaco fourteen years ago, San Javier was the frontier fort of Santa Fe. There was a fort with a rusty cannon that the commandant fired off with fear and trembling in honor of my safe return from the Chaco, about a dozen soldiers, and a town of reduced Indians numbering about six hundred. At this time a large number of Indians are replaced by white men. Agriculture is progressing, and four vessels are loading in the S. Javier River in front of the town with timber, mani, firewood, coal maize and bones. Mani is selling there at 4½ dol. Bol. the fanega of 12 arrobas.

According to all I can hear, the colonial troubles up there that have obliged the Government to send up an 'interventor,' are all to be traced to the Government officials that were placed in charge of the colony. The same old story. It is absurd to think it could be otherwise in colonies directed by the Government.

I shall write to you about Rosario in my next letter.

EDITOR'S TABLE.

The city was terribly shocked yesterday morning by the affair at President Avellaneda's house on Sunday night. As usual there, are two diametrically opposite versions of the affair, and it is hard to get accurate details. It appears that while some Tiro Nacional men were passing the President's house cries from them and counter cries from four soldiers on guard ended in shots by which one of the soldiers was wounded. H.E. President Avellaneda was not in the house at the time, as he had gone out alone for an evening walk. Great excitement prevailed in the neighbourhood during the night, but nothing further occurred. Yesterday the Corps Diplomatique and numbers of prominent citizens of all shades of political opinion waited on President Avellaneda. Later in the day the President summoned all the Cabinet Ministers to his house and a long Council was held. This sad business has given rise to most painful misgivings on the part of peaceable citizens. Two months ago, when treating of Tiro Nacionalism, we predicted the present result.

The Cattle Show on Sunday was a rather tame affair. The weather and the Tiro Nacional Review deterred people from going, and there were only a couple of hundred people present. The show of horses, cows and bulls is very good. We refer to this subject in our leading columns.

Several more Deputies to Congress arrived from the Interior yesterday morning. Thanks to precautions taken by the police, the reprehensible scene at the Central Station on Saturday morning was not repeated. The Minister of War and other high personages were at the station to receive the Deputies.

On the 15th instant, at ten o'clock in the morning, a pigeon arrived at Montevideo belonging to Don Federico Vidiella, which left Coquimbo at six o'clock, making 60 leagues in four hours.

The rain on Sunday forenoon was heavy enough while it lasted, but a week of it would hardly be sufficient for the thirsty camp. In several rural districts it also rained heavily.

There was a grand religious fete at the San Carlos Church on Sunday. Monsignor Mattera, Apostolic Delegate, celebrated Mass in the morning at 7½ o'clock. The boys of the Trades School made the day lively with their splendid brass band, and the Delegate was most hospitably entertained by the Salesian Fathers.

Small pock is so bad in Mercedes in this province, that some of the public schools have closed for a time.

The new Peruvian Minister and suite have arrived at Montevideo and will be here on Thursday morning. An accident obliged them to come from Lima via Southampton, rather a long detour.

The Montevidean papers state that the news from Paraguay is not encouraging. Mr. Milner, who came from London on behalf of the unfortunate bondholders, has not succeeded. It appears that after the banquet at which Mr. Milner assisted, President Barreiro sent for him and gave him to understand that his Government would not enter into an arrangement, giving for reasons the non-conformity of the English to enter into any arrangement when the Paraguayan Government proposed such.

On the 13th inst. a troop of 1,300 animals arrived at the saladero 'Casa Blanca;' The demand for cattle now is pretty stiff.

The English schooner Letitia has arrived at Montevideo, with five passengers in transit from the Falkland Islands. The English schooner Black Hawk sailed for the same place.

Chevalier Oldham left Montevideo in the National steamer 15 de Enero on the 16th inst., for the purpose of having repairs done to the cable.

The Olympic Theatre in Rosario is being painted and decorated in most tasteful and luxurious fashion for the approaching opera season. This will be the first time for Rosario to have an opera company for its special use and benefit, as heretofore it has been forced to content itself with a visit from a scratch company from this city.

To-day is the date named by law for the scrutiny of the last Provincial elections, but it appears there are political reasons for postponing the business.

The police of Buenos Ayres are clever enough, if they were only allowed to let politics alone and mind their own business. Last week a fellow who stole nearly $80,000 from a city merchant and went to Europe to enjoy it, was captured while dawdling about Calle Florida. He spent every rap of the money in Paris.

We feel much pleasure in congratulating our talented young countryman, Dr. Lovat Mulcahy, on the very brilliant examination he passed last week for his diploma as Doctor of Medicine, His thesis was on 'Ovariotomy', and it is worthy of remark that Dr. Mulcahy is the first Englishman that has ever presented a thesis to the Faculty of Buenos Ayres on taking the diploma of Medical Doctor. This in itself is a high distinction, enhanced by the excellence with which such a very difficult theme was handled. Dr. M. has thus crowned in a worthy manner the many distinctions he acquired in his course of studies, and we feel certain that so much talent and indomitable perseverance will be rewarded by the success they so well deserve.

The news from the West Coast is important. The whole Chilian fleet (minus the Cochrane and two more) is anchored off Callao, and Admiral Riveros has given neutral ships a week to 'clear out,' as he will probably bombard the place when the time expires. The Chilians tried twice to blow up the Union, which is in Callao harbour, with torpedoes, but it was 'no go,' as three vessels opened fire on the launch and it had to retire. A second attempt resulted in a torpedo exploding when it touched the wooden screen on the Union's sides; an immense column of water rose in the air, but the Union was uninjured.

The Immigration returns for March showed total arrivals of 3596 souls, but 1200 of them were from Montevideo, and, somehow, Montevidean emigrants are not considered the real thing, but merely as 'supplentes.'

Nothing fresh politically from the sister city. A deal of 'renouncing,' not of a Certain Person and all his works and pomps, but of public posts, is still going on amongst the officials, high and low, down there.

We see that our 'colegacito' the *Industrial* is dreadfully alarmed at Messrs. Sampson and Co's proposal to Government to establish steam between this city and New York and Canada. Our contemporary has the eyes of a lynx for the cause it represents, and fears that the fostering of the importation of North American and Canadian goods would throttle many native industries.

A strong minded lady who wished to act lately in the capacity of her own procurador before the Court of Appeal had her 'Rights' summarily dealt with by the Judges, who refused to hear the fair attorney, or even to let her write to them.

Messrs. Spinetto and Co. have proposed to the Municipality to enclose the Chacarita Cemetery with a brick wall, faced with stone, in which they will build niches for coffins, which can be sold to the public the same as graves.

The Bolsa opened this morning under the pressure of the preceding night's scandal, and as a matter of course gold advanced. People did not so much discuss the contradictory bulletins, as it seemed impossible to arrive at the truth, but the question was put by all:—WHAT NEXT? The affair at the Central Station was an unpleasant surprise, but the affair in Calle Moreno last night is far more than a scandal, it is a humiliation, and will inevitably bring its own punishment. Gold opened at 80.55 and steadily advanced to 80.75. Thus the Calle Moreno affair put on ten cents to the patacon, whilst the Central Station only added five cents. The sales cash were 110,000 pats. For end of month and May something done at cash prices 80.75. The whole business of the day was small, only 418,500 pats.

Cedulas advanced to 86, but touched their highest and dropped to 85½. Treasury bills in very strong demand, and have advanced to 78½, and look going much higher. Roads and Bridges firm at 79.

The most important news on 'Change was that the Provincial Bank had drawn at 60d and the Italian Bank was offering to draw on Rio at 14,800.

Messrs Baring Bros's magnificent telegram came on the heel of the *Porteña* bulletin. We give the telegram in another column. The quotations of our stock in London show another advance. We wonder what they will be to-morrow, if some party telegraph to the City the affair of last night.

Owing to the large attendance at the Rural Exhibition, the Bolsa ruled very dull day. Very little business doing in any line.

Exchange was done to-day at 49⅝; not much doing.

National Bank Shares are again beginning to move, and a leading Argentine broker is dabbling heavily in the stock.

The corredonero brokers report the following sales:—

Portland cement a lot per Copernicus, 250 barrels, sold at $145 in lighter.

Oak and ash, two lots, offering; sellers hold for a rise on last sale of $3.

Linseed oil, 250 drums, sold at $100.

At the National Government House to-day a Cabinet meeting was held, but no one on 'Change knew the result.

The Congress Deputies for Santiago and Santa Fe arrived this morning at the Central Station. Dr Pellegrini, Minister of War, was there to meet them, but there was not even the semblance of a row.

Messrs Harven Freres's Antwerp circular was talked of on 'Change: it is a remarkable paper: owing to press of copy we hold it over for to-morrow, as also an article on the Provincial Bank report for 1879.

The gold sales were:—

The Humboldt, of the Lamport & Holt line, arrived to-day. Mails come up to-night.

Mr Hansse and some 30 others left on Saturday for Montevideo to catch the steamer for the Straits. All go to the new coal mines down there, an enterprise of the very highest importance to this country.

The telegrams from Rio give exchange down to 20d, and sovereigns at 14:020. It was said on 'Change that messages to-day give even a lower rate for exchange.

Gold was sold in Montevideo on Saturday at a fall of 8 per cent on the previous high premium. The entire payments to the Maua Bank were concluded last week. This will leave more gold disposable to the Government. On Saturday there was a sale of $f.3500 gold in the Public Credit Office, destined for the amortization of the Montevidean National paper. The following bids were accepted—

$f.2900 gold at 365.08 per cent
600 " 365.50 "

Produce sales at Montevideo on Saturday:—

On Tuesday last the Estrella, a small coasting vessel, with rand ballast, went down in front of the Catamarca mole, Montevideo. Efforts have been made to float the vessel by throwing out the cargo of sand, which is contrary to the port laws and for which there is a fine.

The Villa del Salto has had all the damages lately received repaired and will in a few days make her usual runs.

The prospectus of the San Luis gold mine was given round last week. The subscribed capital is 8,000 pats in 16 shares of 500 pats each; and the second omission of capital is 10,000 pats in 20 shares of 500 pats each. Of these only 5 are offered to the public for subscription. The board of management is composed as follows:—

President—Sr D. Enrique St. John Wilsman
Secretary—Sr D. L D Forques
Treasurer—Sr D. Emilio Lamarca
Director—Dr D A Finck
Director—Sr D. Alexander Ferrari
Banker—National Bank
Consulting Engineer—J F Wilsman

This company was formed last November with a nominal capital of 8,000 pats gold, and in order to carry out the programme of the company the capital is now increased to 10,000 pats of which the present shareholders have subscribed 8,000. The company proposes to buy up the mining property of Don Mariano Morales which measures 100 yards wide by 2,000 long, and united to those already belonging to the company will give a total length of 4,000 varas, in which area, it is calculated, there exists gold to the value of 800,000 pats. The price to be paid to Morales is 10,000 fuertes, 1,000 pats in shares, and the rest in three instalments of 3,000 pats cash, 6 and 12 months. According to the prospectus the mines when worked ought to give 11½ per cent per month on the capital, based on the present working of the mines by Morales. We published in Sunday's issue some particulars respecting the mines, and now that the railway is being extended to San Luis; it is probable that many parties will go up and inspect for themselve these very rich districts.

The Western Railway Board is beginning to fill up a swampy piece of ground which it seems it has purchased at a very cheap rate from a 'testamentaria Inglesa'; the swamp is alongside the bridge, just before entering the Once, and nearly in front of the Lacross Tramway Station. The Spaniards have a proverb which says:—"Lo barato sale caro" and we believe it applies in the present instance as it will cost the railway millions to fill up and put into shape; moreover, the site is inconvenient for wool deposits, and it seems to us more adaptable for a new station house, as we believe it is proposed to move the Parque Station to the Once.

To-day another auction of public lands took place. The auctioneer Don Antonio Vidal. The land consisted of 2,257 hectars and 675 meters. It is situated in the partido of Azul, and the minimum bid was fixed at 150,000 m/c the square league, payable in ten instalments. The land adjoins the estancias of Messrs Pidero Alcorta, John and Nicolas Anchorena, and Prudencia Rosas. There was some interest on 'Change to know the result of the auction, as the rise in the value of far out estancia lands within the last twelve months is something very remarkable.

The following is a summary of the sales of salted hides within the last few days:—

J B Repetto, 1,500 salted potro hides, 34 lbs, at 16 rls. gold.
Lazaro Repetto, 1,500 do do, 34 lbs, 16 rls do
Podesta, 3,000 do do, 34 lbs, 16 rls. do
Luro, 3,000 do do, reserved price.
Total 9,000 hides.

From the Rivers:—

Garvino saladero, Gualeguaychu, 10,000 novillo hides, 52 lbs., reserved price.
Parachou, Gualeguay, 2,000 salted potro hides, 38 lbs., 17 rls. gold.

The Mendoza papers say that as soon as the railway reaches their province the people in Buenos Aires need import no more French and Spanish wine; and look forward with anxiety to the extension of the railway works.

The running aground of the Cosmos in the Uruguay proved a great disappointment to a large number of passengers on Saturday. It seems that she ran aground at a place called Pepe Aqui, which is situated eight leagues this side Salto.

The total profits of the Provincial Bank for the year 1879 amount to 80,620,315 m/c, showing excess of profits over the previous year of 19,048,538 m/c. but the available profits of the Bank after writing off 8,884,903 m/c. as bad bills, and payments to the Provincial Government under special laws 12,036,791 m/c only amount to 59,699,320. The business of the Bank shows for the year in question a falling off of 21,116,227 m/c in deposits, and of 21,203,910 m/c commercial deposits, which gives a total diminution of the deposits in the Bank of over 52,000,000 m/c, which is a very serious item, and calls for some greater explanation than the mere suggestion that the money has gone into Cedulas.

We call attention to Mr Webb's advertisement in another column; good land and cheap at Bragado.

Letters from Dublin received by the mail state that honorable mention is made of the Irish Relief Committee of Buenos Aires in the columns of the *Freeman*. We note that the Lord Mayor of Dublin's fund surpasses all others by many thousands, and the shower of money on Ireland has been so great that all distress in every part of the Island will be amply relieved.

Letters from London 18th March say that a few days before a contract had been signed by Messrs De Lunge & Cutbill as agents of Public Works Construction Co, for improving harbor of Montevideo in such a manner as to admit the Ocean steamers. And the letter goes on to say that we must be sleeping to have allowed ourselves to be forestalled by the Banda Oriental, being apparently ignorant of the political and commercial importance attached to the possession of a proper harbor for the foreign trade.

JEYES' SHEEP DIP
Prevents and Cures Scab
Destroys Maggots, Tick, and all other Insects

It Cures Foot Rot
It Cures Wounds and Sores on Cattle, Sheep and Horses.
It neither Poisons, Burns, nor Stains.
It Improves the Health and Growth of the Animal.

It Cleanses and Improves the Growth and Quality of the Wool
It Mixes Freely with Cold Water, without Preparation.
It is a Domestic Disinfectant.

Copy of Analysis by Professor Kyle.

National College, Buenos Ayres, November 20th 1879.

Messrs. M. Forrester & Co., Buenos Ayres.

Gentlemen—I have at your request made a careful examination of the sample of JEYES'S SHEEP DIP you handed to me on the 18th inst. I find it to be a well made preparation of Phenols and other Tar products, combined with soap, retaining the liquid form and easily mixible with water, from which it does not afterwards separate.

The proportion of active ingredients amounts to rather over 50 per cent it is free from Mineral Poisons and from Caustic Alkalies. In my opinion it is well worth the attention of Sheepfarmers, and will be found by them to be convenient, safe, and I do not doubt, very efficacious as a Sheep Dip. From the readiness with which the preparation can be mixed with cold water it ought to prove most acceptable as a domestic disinfectant, being more convenient than crude Carbolic Acid or the disinfectant powders so frequently employed.

I am, Gentlemen, your obedient servant,
JOHN J. J. KYLE, Professor of Chemistry.

Extracts from Testimonials

From Mr. Alex. Stewart, Bailiff to H. D. Pochin, Esq. Rodney Hall, Wales—

"The Sheep Dip is the best that I have ever used. I have not seen a single Maggot on any of the Sheep since we used it. The wool looks beautiful, and to all appearance improved in quality. I feel satisfied it will be an invaluable boon to our large Sheepfarmers in the Colonies, and it only wants to be appreciated."

Dr. J. COLLIS BROWNE'S
(Ex-Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1835) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
